The total number of alleged offenders on the Operation Hydrant database is 3535, comprising 3064 males, 317 females and 154 of unknown sex. Of these 3535:

- 405 are deceased.
- 3118 are classified as offending in institutions.
- 715 are classified as unknown/unidentified.
- 369 are classified as persons of public prominence. These comprise:
 - 162 from the world of TV, film, or radio
 - 97 are listed as politicians (these include local level politicians, not just national figures)
 - 49 are from the music industry & 24 are from the world of sport
 - 37 are PPP's of another description

(The totals for 'offending in institutions', 'unidentified' and 'persons of public prominence' total more than 3535. This is because some offenders fall into more than one of these categories. An example would be a person of public prominence who offended in an institution.)

The total number of victims on the Operation Hydrant database is 3664, comprising 2724 males, 911 females and 29 of unknown sex.

1474 different institutions feature on the Operation Hydrant database. These comprise:

- 561 Schools
- 364 Children's Homes
- 145 Religious Institutions
- 116 Sports Venues
- 67 Medical Establishments
- 61 Scout / Associations
- 30 Prison/Young Offenders institutes
- 21 Community institutions (such as youth clubs and community centres)
- 109 'other' institutions (military, places of entertainment, guest houses, etc.)

(There are no longer any institutions classified as 'Unknown' on the Hydrant database.) Operation Hydrant is informed by forces of investigations meeting the criteria, and then coordinates the information to prevent duplication. This is called deconfliction.

To date, Operation Hydrant has received reports relating to 453 deconflictions.
