

Spoken input sessions for the NPCC Four Nations Trauma Informed (TI) Virtual Conference

“What does Trauma Informed Policing do?”

Desired conference outcomes

1. Showcase TI theory that has developed into strategic and tactical practice
2. Create space to share and develop our understanding of the existing evidence base of TI practice in policing across the four nations.
3. Co-produce the conference with those with lived experience and promote practice that has been co-produced with those with lived experience
4. Share good practice in trauma informed policing (or trauma aware) in a TI policing/partnership context.
5. Learn about new and developing TI theories and how they impact on policing and its role in the wider criminal justice system.
6. Understanding and demonstrating examples of the breadth of partners relevant to trauma informed policing
7. Assist attendees with TI organisational development
